

BioProcess Specialist (I & II)

Who

GBI Biomanufacturing is expanding their team! Having recently announced the signing of their first commercial contract, they are looking for great people to join them on their journey. If you'd like to join this full-service exceptional CDMO during this exciting growth period, and you want to play a key role in keeping the world healthy, this could be your next career move!

What

Reporting to the Upstream Manufacturing Manager, the BioProcess Specialist I will be responsible for supporting the overall Upstream GMP process. This will be via the application of knowledge of theories and principles to complete operational tasks during the production of bulk biologics from microbial and cell culture systems for Phase I/II/III and commercial GMP manufacturing. Main responsibilities include:

- Operate pharmaceutical manufacturing equipment such as: incubators, wave reactors, single-use and stainless-steel bioreactors, single use mixers, depth filtration skids, TFF skids, chromatography skids and in process testing equipment.
- Execute all Upstream Clinical Manufacturing and Development operations, including but not limited to: work functions in cell culture, cell banking, media optimization, seed train preparation, bioreactor operations, harvest/clarification, and technology transfer to manufacturing.
- Perform and monitor critical processes, executes manufacturing batch records (MBR) for specific projects to manufacture cell-derived biopharmaceuticals in compliance with cGMP.
- Support the development of batch records, SOPs, and protocols
- Provide support during audits and other regulatory inspections

You

Ideally candidates will possess a BS Degree in Science, Engineering or related field. Some exposure to biologic production processes under GMP is helpful (preferably upstream). Pharmaceutical documentation skills are preferred, but not essential (producing/ reviewing/ understanding batch records).

Don't meet all the requirements? Don't sweat! We're always looking for an excuse to discuss your next opportunity. You might just surprise yourself...

Lead Candidate wholeheartedly supports Equality and Diversity in employment and opposes all forms of unlawful or unfair discrimination on the grounds of age, disability, sex, gender reassignment, sexual orientation, pregnancy and maternity, race, religion or belief and marriage and civil partnerships.
